

How Limina Helps Clients Enable

Faster Business Development

Challenges

1

Integrations are Expensive and Incomplete

4 out of 5

Asset Managers struggle with cost and timeline for new and changed integrations

2

Asset-class Limitations

Launching new strategies requires new systems

3

Operating Model Changes are Slowed Down

Existing systems do not support your new target operating model out-of-the-box

4

External Managers

External managers use their own systems, restricting oversight and STP

Our Solution

How Limina can help you
Evolve Faster

1

Extensive & Cost-Effective Connectivity

2

Multi-Asset Class Coverage

- Fixed Income
- Equity
- Funds
- Derivatives
- Digital Assets
- Cash

3

Flexible Workflows for all Operating Models

- Outsource trading fully or partially
- Outsource data management
- Outsource middle or back office
- Adopt centralised or distributed operation model

4

Empower and Control External Managers

Granular permissions and web-based access for external managers.

Case Studies

Limina facilitated the transition from an in-house operations model to an outsourced approach.

35% of funds are externally managed at Avanza. All launched after Limina was implemented.
